

equine

places in the State during the Census. This includes racing, breeding, and all sizes of boarding facilities as well as private residences where horses are being kept for recreational purposes. On these places, there are 38,000 people actively involved with the equine.

These equine operations account for a total of 685,000 acres, of which, 206,000 acres were used primarily for equine related purposes. The value of all equine related assets totaled \$5.2 billion, including the value of the inventory. The value of land, fencing, and buildings made up about 76 percent of the total assets. The value of the inventory accounts for 13 percent and equipment and supplies made up about 11 percent of total reported assets. Equine related expenditures amounted to nearly \$766 million, of which 62 percent were operating expenditures and 38 percent were capital expenditures. There were 8,400 horses sold during the past year with an average value of sales of \$14,196. Less than 100 mules, donkeys and burros were sold.

Results of the 2002 Maryland Equine Census
